Another town, another place  
Load off the gear, bring on the beer  
Tired and worn out, but there's no doubt  
We're gonna please you  
Just like we always do

Full speed ahead, we're coming your way  
X-rated rockers, no matter what you say  
Reckless and vain, we'll rock it to the dawn  
I'm sorry honey but we gotta move

Gotta move on  
Gotta move on  
Gotta move on  
It's time to roll,  
We gotta get out of here, on

Stockholm, Berlin, Rome,  
Don't know where I've been  
Don't know where I'm goin'  
A million faces, the stage is mine  
Hard rockin' B-bombs standing in the front line

We're getting high and so low  
We're still rolling, rolling like a freak show  
Reckless and vain, we'll rock it to the dawn  
I'm sorry honey but we gotta move

Gotta move on  
Gotta move on  
Gotta move on  
It's time to roll,  
We gotta get out of here, on  
Gotta move on  
Gotta move on  
Gotta move on  
It's time to roll,  
We gotta get out of here
