Pretty baby with an attitude  
I know you're hurt you don't have to be rude  
Cause I know, just what you need to feel right

It's been a long and winding road  
But I'm here to lighten your load  
Cause I know how to turn dark into light

Let's go for a ride, yeah  
I'll be your man and you'll be my bride

(She's got a) jaded heart  
I know that time's been rough  
Jaded heart  
I won't be a ball and chain  
I can make you smile again

Don't blame yourself for the state you're in heartbreaks  
and tragedy  
I know, just what you need to feel right

The damage's done, don't look back  
Little sister, got to stay on the track  
Cause I know how to turn dark into light

Let's go for a ride, yeah  
I'll be your man and you'll be my bride

(She's got a) jaded heart  
I know that time's been rough  
Jaded heart  
I won't be a ball and chain  
I can make you smile again
