"Let it loose"

So uptight so predicted
Nothing's good enough, oh no
A spoiled child, brand addicted
Sweet and perfect
But she likes it rough, so rough

Heads up, she's on a roll
Daddy's girl is out of control

Let it loose, let it loose
You don't need no excuse
Let it loose, let it loose
She's high on the juice

Gets her fix down the alley
Dancing all night long
From dusk to dawn
Trashed out she's on a
Sally straight to hell
She's already gone
Already gone

Heads up, she's on a roll
Daddy's girl is out of control

Let it loose, let it loose
You don't need no excuse
Let it loose, let it loose
She's high on the juice
