Some time ago, didn't know what I was doin'
Just driving down that road to ruin
Down on my luck, feeling pretty grim
Just finished up a whole bottle of gin

A surprise, I couldn't believe my eyes
I fell down to the ground by the massive sound
Out of the blue came this shining light
When the smoke cleared, what a beautiful sight

Feels like I'm going blind
Blackout, I'm out of my mind
If I'm awake then I'm flying
No need, no need denying

Lights out I've been starstruck
Feels like I've been hit by a truck
But I love it, love it, yes I do
Space trucking and it feels so right
We disappear into the white light
But I love it, love it, yes I do

I woke up with a headache from hell
Looks like I've slept in a prison cell
Tattered and torn, down and out
I was a god damn mess there's no doubt

Tried to walk but I couldn't even crawl
Got pushed back against the wall
Honey on my tongue, tasted so sweet
Angels touch and the devils beat

Feels like I'm going blind
Blackout, I'm out of my mind
If I'm awake then I'm flying
No need, no need denying

Lights out I've been starstruck
Feels like I've been hit by a truck
But I love it, love it, yes I do
Space trucking and it feels so right
We disappear into the white light
But I love it, love it, yes I do
