fever i know you've come to take my love  
go away  
go away  
go away  
fever i know your face just like a dove  
fly away  
fly away  
fly away  
fever, turn the lights out. take a different road, let us  
be.  
fever i know your've come to take my love.  
go away  
go away  
go away  
fever i know in god i shouldnt trust. he's so far away, so  
far away  
far away  
fever turn the lights out. take a different road, let us  
be.  
fever, take a different route, travel a different road, let  
us be.  
fever i know you've come to take my love.  
go away  
go away  
go away  
go away  
fly away  
go away  
fly away, oh how low, how low.
