When I came back home from the USA  
I had nothin' in my pockets and not a lot to say  
Though I knew somehow we would meet real soon  
But the way you've been avoidin' me  
It's like I'm livin' on the moon  
Here I am on this side of the stars  
Livin' in California  
And sometimes I get out of reach in the bars  
Dreamin' about my life  
And maybe one day I'll take a wife  
Though I spent some time on the evil road  
I've done things that I'm ashamed of  
Oh man it's such a heavy load  
Though I knew somehow we would meet real soon  
But the way you've been avoidin' me  
It's like I'm livin' on the moon  
Here I am on this side of the stars  
Livin' in California  
And sometimes I get out of reach in the bars

Dreamin' about my life  
And maybe one day I'll take a wife  
Oh  
I miss you girl  
Your dreams are more than I can take  
You are the love of my life  
But I could be my biggest mistake  
Ah babe my heart's turnin' like a wheel  
I feel emotion for you but I just can't tell if it's real  
When I came back home from the USA  
I had nothin' in my pockets and not a lot to say  
Though I knew somehow we would meet real soon  
But the way you've been avoidin' me  
It's like I'm livin' on the moon  
Here I am on this side of the stars  
Livin' in California  
And sometimes I get out of reach in the bars  
Dreamin' about my life  
And maybe one day I'll take a wife  
Oh ooooh baby oh I miss you girl
