Come and see the blinding  
It's so blinding  
It's the last thing that you'll ever see  
But you might be happy oh, happier  
Than you've ever been

So let me show the blindin  
Last thing that you'll ever see  
But you might be free oh, freer  
Freer than you've ever been

What will you do  
If she runs out of time for you?  
When will you go  
Things to be getting on with  
on with, on with the show!

Come and see the blinding  
It's so blinding  
It's the last thing that you'll ever see

Let me show the blinding  
It's so blinding  
It's so blinding  
It's the last thing that you'll ever see

Oh what will you do  
If they run out of time for you?  
Crossing the roads without you  
Out you, out you go.

Out you go, out you go

[Pete speaking]

And the blinding means the blinding  
It's the last thing that you'll ever see  
Oh, oh, oh, last thing you'll ever see
