Hooligans on E
He buys you burberry
And aquascutum
If you're lucky
Hooligans on E
Discussing symmetry
Said I'd like to join the gang
Going home in a London ambulance
Going home in a cosmic ambience

Hooligans on E
His soul, his soul walks on water
Hooligans on E
Dancing all day
I like it, can I join your gang?

No, we don't carry coal
And no, we don't carry lead
We only carry hatchets
To bury in your head

No, we don't carry coal
And no, we don't carry lead
We only carry melodies
To bury in your heart and in your head
