some say that love isn't fair
but they don't know you and me
and when they tell me that love doesn't last alone
that's when i look at you
and it's alright just let me lead you

it's ok if you close your eyes
i'll be standing by your side
i'm gonna love you the best that i can
you're my heart and you're my best friend
and i promise til the end (yeah)
i'm gonna love you the best that i can
that i can..

time cannot tear us apart (no no no)
we're stronger than yesterday
and though we've traveled so far
you're still close to me
love changes everything
and know that it's alright
just let me lead you (let me lead you)
(yeah)

it's ok if you close your eyes (it's ok)
i'll be standing by your side
i'm gonna love you the best that i can
you're my heart and you're my best friend
and i promise til the end (yeah)
i'm gonna love you (gonna love you) the best that i can

through the peaks and the valleys
you're not alone
and when the world's upside down you know i'm there
and anytime i feel afraid that's when i look at you

with the best that i can
i will love you (will love you) the very best i can
the best that i can
with every breath i take
from this moment til the very end
i'm gonna love you (gonna love you) the best that i can

the best that i can

it's ok if you close your eyes
i'll be standing by your side
i'm gonna love you the best that i can
you're my heart and you're my best friend
and i promise til the end (yeah)
i'm gonna love you the best that i can

i'm gonna love you
i'm gonna love you the best that i can
