Don't turn out the lights now! (2x)
N- K- O-T-B-S-B, Baby

[Verse 1]

I know we haven't been getting along, long at all
I don't think that it's time
You and I can give in
Just call, call it off
I don't wanna say goodbye
Cause just when I think we're through
The memories come flooding back
It's like instantly I love you like that
I was on fire for you
We could get it back again
If you don't say it's the end, the end

[Chorus]

So don't turn out the lights now, lights now, lights now
Cuz in a minute we'll be feeling like never before
We'll light up the night now, night now,
Right now
I'll be whatever you need and more
So don't turn out the lights now
Don't turn out the lights now

[Verse 2]

I'mma give you a minute to clear, clear your head
Take the rest of the night, yeah (Take your time)
You're gonna see that it's empty without me in your bed
Baby, you'll change your mind
Cause just when I think we're through
The memories come flooding back
And instantly you love me like that
I still got this fire for you, we can get it back again
If you don't say it's the end, the end
