Backstreet Boys

I Still Love You

Why, why, how could you do that to me
You out my love, to another love
Don't seem that long enough
I can't without you
Oh oh baby

CHORUS

No matter what happen
You can count on my love
I will stand by you forever
And I still love you
No matter what happen
I still love you, oh baby

Maybe you are traitor
Maybe you are not
But how our love doesn't fix
Why, why could you do that to me
Our love once again will forever
And i will be with you

CHORUS - REPEAT

Our love once again forever (forever yeah)
How could you do that to me
Follow another love
No matter what you had done
I still love you, oh CHORUS - REPEAT
