Oh, I will be yours

I don't know what to do  
I can't believe it's true that  
You can make me feel this way  
I see it in your eyes  
It made me realize  
There's something that I've got to say

Refrain:

I just wanna tell you that I'm sorry  
For all the things I've done to make you worry  
And all the time I cared for you from the bottom of my  
heart

Chorus:

I will be yours if you'll be mine  
I will be there 'til the end of time

I will be with you until the day that I die  
I'll be yours, I will be yours

I've been around the world  
And seen a lot of girls  
But no one can compare to you  
It's really plain to see  
That you belong to me  
Cause you're the only one I need

Refrain

Chorus

I will be yours (2x)

Oh, I will be yours

Chorus

I will be yours (2x)
