Oh yeah, baby yes

Something about the way you moved  
That caught my eye  
I really did have to try it  
I can't deny it

The way your body swayed  
As I watched you from behind  
Got me so exited  
How could I fight it?

Baby, let me be the one to hold you  
To give you the things, I know you miss  
You know, we can wait another lifetime  
And we can never find a love just like this

If you lay down, lay down beside me  
You can get all inside me  
And I can get all inside you too  
If you lay down, lay down beside me  
You can wake up beside me forever  
Forever and ever, forever and ever baby

Let's take this chance to get  
To know each other better  
Maybe we will discover  
We can be more than lovers

I'll give you what you need  
Just come to me and get it  
Baby, you won't regret it  
No, no, no, no, baby  
Baby move a little closer, yes

I wanna feel your body next to mine  
And before this night is over  
You will just know what it means  
To be loved until you scream

If you lay down, lay down beside me  
You can get all inside me

And I can get all inside you too  
If you lay down, lay down beside me  
You can wake up beside me forever  
Forever and ever, forever and ever baby

Tonight we'll find  
Find just what we've been looking for  
Good good love and a whole lot more  
Hold on, real tight, hold me and don't you let go  
Not till I tell you to

If you lay down, lay down beside me  
You can get all inside me  
And I can get all inside you too  
If you lay down, lay down beside me  
You can wake up beside me forever  
Forever and ever, forever and ever baby
