As the world goes round round round round  
Let the beat go down down down down  
Can we stay up all night  
'Cause we can sleep all day  
Everybody come out to play  
Lemme hear ya say yeah yeah yeah

How did we get here?  
Feels like I'm floating off the ground  
Love makes me weightless  
I'm getting scared of looking down

Oh oh  
I get so high that I don't know what I'm feeling baby  
Oh oh  
And I get this vibe when I get you by my side  
Oh oh  
It's about to get crazy, wanna get crazy with me  
Hold on tight

As the world goes round round round round  
Let the beat go down down down down  
Can we stay up all night  
'Cause we can sleep all day  
Everybody come out to play  
Lemme hear ya say yeah yeah yeah

We get lost in space  
We don't need no rocket to get lost in space  
Show me how you rock it baby  
Lost in space  
We don't need no rocket to get lost in space  
Lost, lost

It feels like I'm crashing yeah  
I'm crashing slowly into you  
I love the attraction  
I'm lovin everything you do

Oh oh  
I get so high that I don't know what I'm feeling baby

Oh oh  
And I get this vibe when I get you by my side  
Oh oh  
It's about to get crazy, wanna get crazy with me  
Hold on tight

As the world goes round round round round  
Let the beat go down down down down  
Can we stay up all night  
'Cause we can sleep all day  
Everybody come out to play  
Lemme hear ya say yeah yeah yeah

We get lost in space  
We don't need no rocket to get lost in space  
Show me how you rock it baby  
Lost in space  
We don't need no rocket to get lost in space  
Lost, lost

We don't need no rocket to get lost in space  
Show me how you rock it baby, lost in space  
We don't need no rocket to get lost in space  
Lost, lost in space, lost, lost in space  
We don't need no rocket to get lost in space  
Show me how you rock it baby  
We don't need no rocket to get lost in space  
Lost, lost in space

As the world goes round round round round  
Let the beat go down down down down  
Can we stay up all night  
'Cause we can sleep all day  
Everybody come out to play  
Lemme hear ya say yeah yeah yeah

We get lost in space  
We don't need no rocket to get lost in space  
Show me how you rock it baby  
Lost in space  
We don't need no rocket to get lost in space  
Lost, lost
