[Brian:]

Here I am again
Waiting on the moment you decide
To leave me stranded on the edge of nowhere
Iâ€™ve been so close to you so many times
I feel like I could drown
I wish that I could fly away from here

[All:]

But Iâ€™m still coming down

[A:]

From the last time

[All:]

That you came around

[A:]

In the starlight

[All:]

Now Iâ€™m pulling to your gravity
Spinning helplessly
Iâ€™m falling through the night
Like a lonely satellite

[A:]

Like a lonely satellite

[Nick:]

With walks on Jupiter
Fool around the moon a time or two
Left a mark on every star we could find
But now Iâ€™m burning like a meteor
That never hits the ground
Wish that I could fly away from you

[All:]

But Iâ€™m still coming down

[A:]

From the last time

[All:]

That you came around

[A:]

In the starlight

[All:]

Now Iâ€™m pulling to your gravity

Spinning helplessly

Iâ€™m falling through the night

Like a lonely satellite

[Nick:]

Love is poisoning the atmosphere

Is keeping everything unclear to me

[Howie:]

Something in your eyes

Never satisfies

Iâ€™m feeling so alone, tonight

[All:]

But Iâ€™m still coming down (still coming down)

From the last time (the last time)

That you came around (you came around)

In the starlight (the starlight)

Now Iâ€™m pulling to your gravity (ooooh)

Spinning helplessly

Iâ€™m falling through the night (falling through the
night)

Yes Iâ€™m falling through the night (falling through the
night)

Like a lonely satellite

[Nick:]

Like a lonely satellite
