Do, da da da da
Do, da da da da
Do, da da da da

The candle plays the hourglass
The days go and all I do is think of you
And wonder where you are at night
I remember everything
Every smile even all the reasons why
You say I pushed you out of my life

Baby you set me
Baby you set me
Set adrift on memory bliss of you
Baby you set me
Set adrift on memory bliss

Destiny is everything
Reality's replaced you with
The biggest empty void, I've ever had in life
Bet you say that I don't care
I bet you say that I don't even think of you
But God knows how wrong you are

Baby will you be there?
Just give me time
To fix my life
Baby will you be there
When I open my eyes?
After all the time I've spent
Wishing you

Baby you set me
Baby you set me
Set adrift on memory bliss of you
Oh, baby you set me
Set adrift on memory bliss

Sadness has overwhelmed me
My mind flies carelessly
I imagine that you're happy
With your life right now

Oh, I guess that's just the way it goes
Forever's gone so now I must
Place with you with all the things
That I could never have

Baby you set me
Baby you set me
Set adrift on memory bliss of you
Baby you set me
Set adrift on memory bliss

I don't drift, my drift too
You too, you too
