Got a million reasons to run and hide
I don't blame you for being scared(for being scared,
no)
Bout a novel long, all the pain that he caused you
Baby I'm fully aware(I'm fully aware)

I would change the stories ending to me and you
Don't know the meaning of pretending what to do

I could be the one
Give you all my love
Forget what he has done to you
I'm here now
Open up to me
Love will set you free
If ever you believe it
Please believe in me

This is us(x4)
This is love(x2)
I'm here now
This is us(x4)
This is love(x2)
I'm here now

I know everything isn't meant to last
Box up all the photographs
You're moving on(yeah)
I could flip back that hour glass
And refill the better half(the better half)

And it's a miracle
How broken hearts can mend
Want you dry up all those teardrops and start again

I could be the one
Give you all my love
Forget what he has done to you
I'm here now
Open up to me
Love will set you free
If ever you believe it

Please believe in me

This is us(x4)
This is love(x2)
I'm here now
This is us(x4)
This is love(x2)
I'm here now

If I could show you
There's no risk of being left alone
Would you let the past go
I'll take it slow
Cause there's no need to rush when I know

I could be the one
Give you all my love
Forget what he has done to you
I'm here now
Open up to me
Love will set you free
If ever you believe it
Please believe in me

This is us(x4)
This is love(x2)
I'm here now
This is us(x4)
This is love(x2)
I'm here now
