It was a plot to take over
to diveid and conquer was the plan,
but there was one thing that they overlooked
the masses and multitudes across theis land.

Chorus:
Woe unto babylon,
we're comin in numbers, in numbers.
Woe unto babylon,
we're comin in numbers, in numbers.
Fight for your rights living in babylon
and don't believe when they tell you this world is just
for you.

Weak abandoned by your leader.
Now you stand alone.
Loser in a war waged against right.
Wasn't even a fight, wasn't even a fight.

Chorus:
Woe unto babylon,
we're comin in numbers.
Yes, in numbers.
Woe unto babylon,
we're comin in numbers, in numbers.
Fight for your rights living in babylon
and don't believe when they tell you this wrold is just
for you.

It was a plot to take over.
To divide and conquer was the plan,
but there was one thing they overlooked the masses
and multitudes across this land.
