Don't bother me!

You wanna see ma hang around?
Don't bother me

You wanna know if I'll get down?
Don't bother me

I can't take your kind of life no more
Oh can't you see?
So understand the simple truth
Don't bother me!

You! Would love to hear me say I'd give up you.
You wanna hear me say I'll break of you.
You can't believe I stop loving you
You wanna know if I could hate cha

Oh I got no time for compromise
Don't bother me

"He heard all these things" - it's a bunch of lies
Oh can't you see

And pretty soon there won't be no more
Of "you and me"
So understand the simple truth
Don't bother me!

You! Would love to hear me say I'd give up you.
You wanna hear me say I'll break of you.
You can't believe I stop loving you
You wanna know if I could hate cha
