Free
Never to breakdown
Never to fall
We wont keep on keep on living
With our backs against the wall
You say were so ignorant
But i can't agree
What sometimes right for you
Its not always good to me no
All I wanna know
Will we ever be free
Me loving you
And you loving me
You bring us to the ground
In a system built for fools
Then mastered the politricks
That kept us in your schools
You taught us anger by
Never showing love
Now I hope you never find out
What weve been dreaming of
Chorus
Never to breakdown
Never to fall
We wont keep on loving
With our backs against the wall
You say were so ignorant
But I can't agree
Cause I know what's right for you
Could never be right for me
Chorus
