Ms. Babylon your queendom is doomed, across this  
land you'll spread your no more gloom. Cause one ah  
thes days you gonna get your jilt and we'll never hae to  
deal with no more of your filth. We will not do what they  
want or do what they say. Oh no. We will not do what  
they want or do what they say. Oh No. Oh, Mr. Bacon,  
your future time is near and to the people, no more lies  
do they wanna hear. We read the bible and see your  
666. And now we'll never have to deal with no more  
tricks. We will not do what they want or do what they  
say.
