I don't know
The first thing about our wicked generation
Strength and do are not me
Say I've noticed that you have noticed me

I'm dying to amuse you
I used you to get laid
And I will surely burn
If you want to see me burn
I'm dying to amuse you
I used you to get by
I'm dying to amuse you
I used you to get laid
And I will surely burn
If you want to see me burn

It's meaningless
To fill it up with this lonely lifetime
I can stand your stupid stories
So together is strong when you're the only one

I'm dying to amuse you
I used you to get laid
And I will surely burn
If you want to see me burn
I'm dying to amuse you
I used you to get by
I'm dying to amuse you
I used you to get laid
And I will surely burn
If you want to see me burn
