You can change it for a bit
But you should know just when to quit
The boy looks better when he laughs
So he's stuck with that forever
Aaaah
If you are growing as a man
You will never understand
And I know that's hard to know
So it's OK if you are afraid
Cause you're growing (grow growing)
You're growing (grow growing)
No it's not me that I'm living for
No it's not me that I'm living for
No it's not me that I'm living for
No it's not me that I'm living for
Aaaah
Oh I hope you start to see
That it's not made for you and me
But then again it's not the end
It's just a phase you have to pass
Cause you're growing (grow growing)
You're growing (grow growing)
No it's not me that I'm living for
No it's not me that I'm living for
No it's not me that I'm living for
No it's not me that I'm living for
Aaaaah
