I can take it any time but now
So I keep going, going on forever
And I look down at everyone
Cause I can't stand it anymore
I think it's good to be the first one
Who knows I am the only one
I can take it any time but now
So I keep going, going on forever
And there's a place I know
Where you and I always go
And there are people who
Still think I'm good
And that is good
Cause I'm an outcast
I'm a lost cause
I'm an outcast
I'm a lost cause
It's not the first time I lose
But it's the last time I lose
I can take it any time but now
So I keep going, going on forever
And I look down at everyone
Cause I can't stand it anymore
I think it's good to be the first one
Who knows I am the only one
And there's a place I know
Where you and I always go
And there are people who
Still think I'm good
And that is good
Cause I'm an outcast
I'm a lost cause
I'm an outcast
I'm a lost cause
I'm an outcast
I'm a lost cause
I'm an outcast
