I can't help I like to I like go out at night
Then I think it's alone
And you say
If you think it's alone to go out at night
might as well not go at all

But I think it's funny to go out and meet you

You're the greatest impression for me
You're the greatest impression for me

I can't help I like to I like go out at night
Then I think it's alone
And you say
If you think it's alone to go out at night
might as well not go at all

You are putting me to sleep cause you are boring me
You are putting me to sleep cause you are boring me
Bo-oring
Bo-oring me

But I think it' funny to go out and meet you
