

Bad Genes "Hated"

Visit "[Hated](#)" on MotoLyrics.com

Your anger is getting old
Heard all the stories, all the lies you've told
There's nothing that you can say
That can make our hatred go away

You're hated, for what you've done
You're hated, by everyone
You're hated, for the things you say
You're hated, every fucking day

We're sick of looking at your face
Your time is up; your whole life's a waste
Your ignorance is outta control
Living your life playing up a role

You're hated, for what you've done
You're hated, by everyone
You're hated, for the things you say
You're hated, every fucking day
