quietly i watch you sleep... hopefully you wont hear
what i say
wondering if i turned the clouds... happy the moment i
tasted your rain
tonight was the night... that i saw my first sight
of how pleasure wins over pain
now i know what i know... dont wanna ever let you go
i just hope that you feel the same

chorus

you shot your arrow thru my restless, shaking heart
you came down on me slow... drew back your bow
my lady, you shot your arrow straight thru my heart

i kiss your mouth and stroke your hair... intently, i hang
on your every
breath

i know what i'm feeling now is more than just lust
for the sake of your flesh
girl, i need you now... tried my best to learn how to be
all that my words
might say
caressing your skin... i never imagined
that i'd ever feel this way

chorus

girl, i need you now... i'll try my best to learn how to be
all that my words
might say
caressing your skin... i never imagined
that i'd ever feel this way

chorus
