(Intro)oooooooooooo

(Chorus 2x)you said you love it when you hold me  
That you will be there for me  
You love me and you need me  
You said that you'll do anything to please me

(Verse 1:) show me love I can give you my trust  
Cuz you have given me what I wanted and that's what I  
wanted to see when you touch me  
I get a good feeling and hopefully  
Baby our love would last(baby our love would last)  
So hold me and touch me and kiss me, love me  
Baby just show me what you gon give and I'm gon give  
right back

(Chorus 2x)

(Verse 2:) I can't deny it with you I feel so satisfied  
can't nobody come between the two of us, cuz it's pure

I love you so much (I love you so much)  
So hold me and touch me and kiss me(love me, love  
me, love me)  
Love me' kiss me' touch me, hold me in your arms
