When I last saw you  
You called,  
Called my name out loud  
If I'd have heard you  
You know I would have  
Blown away those clouds

Say what you say  
To get you through another day  
Hold out those arms  
Until you get to where you are

You talk of leaving  
Without a thought of where to go  
So your hearts bleeding again  
You've got to let that river flow  
(Anywhere it goes,) To Anywhere it goes,  
(everything you see) Everything you see

(Until they let you be) Until they let you be (Until they let  
you be)

Say what you say  
To get you through another day  
Hold out those arms  
Until you get to where you are

Find a place that you're gonna feel  
Everything about you is for real

(INSTRUMENTAL)

Say what you say  
To get you through another day  
Hold out those arms  
Until you get to where you are (REPEAT TO FADE)
