

## **Badi** **"Say What"**

Visit "[Say What](#)" on MotoLyrics.com

whats the time, its time for youth to rise  
utilize the tools but first lose their cools  
time to remove the facades that we have on  
cause i cant see the god in you through them  
created noble, you say what  
I say hey thats just the way he made us  
mankind the chosen ones, with the tests  
that he gave us the power to overcome  
granted minds to know and ears to hear  
eyes to see clear when the blessings appear  
so I'm never giving into fear, cause I know  
god's plan is such nothing can ever interfere  
got that hustle you cant see, made to plant seeds  
see the troops coming in stampedes  
no need for plan b cause our plan divine  
made to stand the test of the hands of time
