Shes the woman I chose to own me
Shes the woman I gave the reigns
She picks me up when Im feelin lonely
She pays the bills, I can't complain

Shes the woman who understands
Shes the woman who loves her man

Shes the woman who stayed in college
Shes the woman got an mba
Shes using all her higher knowledge
She got me where I am today

Shes the woman who understands
Shes the woman who loves her man

Shes the woman Ive been looking for
She wakes me up and helps me off the floor

Shes the woman who does the drivin
She takes me there, then she gets me home
I don't have to be out there buyin
She sits with me while I drink alone

Shes the woman who understands
Shes the woman who loves her man
