

## **Bag Of Toys "Share"**

Visit "[Share](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You've got to share / Share the moment  
You've got to share...Share the love  
You've got to share  
Share your time together...  
Cuz you never know when that will come to pass

You've got to love / Love one another  
Until it's time, time to let them go  
You've got to hold / On to each other  
While you can, Cuz you just never know

Sitting in the grass, pass/sucking on the wet ass  
end of a fat blunt / taking in the warm front  
Sipping on a cold beer / breathing in the clean air  
Chilling with my good friends/Here's to hoping that it  
never ends

You've got to take / Take those chances  
Dig inside your heart to find a clue  
You've got to make  
Make your time together...

All that it can be to see you through

Sitting in the grass, pass/sucking on the wet ass  
end of a fat blunt / taking in the warm front  
Sipping on a cold beer / breathing in the clean air  
Chilling with my good friends/Here's to hoping that it  
never ends

Chilling n' spilling the loving I'm feeling / I'm holding  
the tone that I'm always believing  
Flowing, unknowing meticulous growing / Last of the  
circle to get what your doing  
Dealing with feelings, but take what you get  
Your falling in love, but you only just met  
If I got the chance to do it, man, i'd do it all over again

If I had, If I had, If I had that chance...
