Wake up in the morning / a suicidal warning  
Pull the shades back up to expose the sun  
Walk outside or get a ride just get your ass there on  
time  
Cuz we'll leave without everyone

we never did.

Everyone knows where to meet/Just behind pier 23  
Don't forget your 12 pack of beer  
The weathers great I have to say It's gonna be a perfect  
day  
And we haven't lost a single life yet  
we never did...never did, never did, never did...

Oh! Drink it on up, tilt it on back and pass the rest on  
Oh, Don't let these days pass you by, cuz they won't  
last that long

Rich is making drinks down stairs / Pass him down the  
empty beers  
Could someone pass another one up?  
Kinda sacked, the boat is packed / Christeen's puking  
off the back  
If the coast guard see's us, man, we're fucked

but they never did.

Brady's got the music wired / The Bob Marley's still  
required

To get this vessel all in the mood  
Get to Sam's is all we've planned / Docking we could  
sure use a hand  
Before the waitress brings us our food  
she never did...never did, never did, never did...

Oh! Drink it on up, tilt it on back and pass the rest on  
Oh, Don't let these days pass you by, cuz they won't  
last that long

I'd like to see, be it, feel it, need it,

Don't repeat the shit your seeing, dealing with the  
feeling that your needing (its a)  
long ride, high...tide...brain's fried, I think it's done, I  
think it's leaking out the other side  
Go low, so-lo, ain't got no posse cuz their getting  
loaded on the boat  
I'd like to see, be it, feel it, need it,

Oh! Drink it on up, tilt it on back and pass the rest on  
Oh, Don't let these days pass you by, cuz they won't  
last that long
