"You & I"

Visit "[You & I](#)" on MotoLyrics.com

Time don't let me wait too long
Been searching high and low
Waiting for the love
You promised me
And I believe with all my heart
That you'll come back to me
We'll fall in love once again
[chorus]
You and I
We can make it if we give love a try
You and I
We'll have brighter days
We'll love through the night
You and I
There's no way that we can fall
We can have it all
If you believe in you and I
Now I can't wait another day
To hold you and to say
The words that you've been longing to hear
So try and look into my eyes
The secrets deep inside it's locked away
You hold the key
[chorus]
[bridge]
And we can climb any mountain
And shout out to the world
For all to see
That there's no greater love song
That this song in our heart
So won't you sing with me
[repeat chorus]
