I've never touched your body  
I've never felt your love  
but I saw you every day when you stood naked in the  
bath  
I tried to understand  
what's growing up in me  
but I didn't recognize all the things I felt for you

I've never held your hand  
i never got so close  
but I called you everyday on my phone which can't  
stand still  
I tried to understand  
what's growing up in me  
but I didn't recognize all the things I felt for you

No! I don 't wanna hold your hand  
No way! So here is my demand  
Hey you! I just wanna be that man  
who is the only one that sticks between your legs

I've never touched your body  
I've never felt your love  
but I saw you every day when you stood naked in the  
bath

No! I don't wanna
