"Who's To Blame"

Visit "[Who's To Blame](#)" on MotoLyrics.com

I go around to see what's wrong, look for things that
went undone
try to control that things, that made my brain insane
When I tried to play my game there was a feeling in my
head
a feeling that i've never had before
So there's a problem I have to cope with
it's a nightmare which happens every day
Now, I'm afraid to fall asleep
don't wanna count every sheep
That's it!
Please tell me who's to blame

I've made some tries to prove me wrong Thought I'd go
back where I belong
I've passed my life in a sad comic strip
I've tried my vest I've tried in vain I lost my mind and I
lost my gain
but I must tell you that I don't know what I sing

So don't be a fool
and forget about my rules
'cause here comes another chorus
So there's a problem I have to cope with
it's a nightmare which happens every day
Now, I'm afraid to fall asleep
don't wanna count every sheep
That's it!

Please tell me who's to blame

I go around to see what's wrong look for things that
went undone
try to control that things that made my brain insane
When I tried to play my game there was a feeling in my
head
a feeling that i've never had before
I don't know what to do
look for the things that are coming true
I'll get away from you
