"Echo"

Visit "[Echo](#)" on MotoLyrics.com

You make me lose my mind
But once I find it you know, I'll be back again
Back tomorrow night
Back tomorrow
Back tomorrow

Let go
I should let go
But I can't go
'cause I can't leave you behind
'cause you echo
You echo
'cause you echo in my mind

Beat it, beat it, I wish you'd stop repeatin'
'cause I can tell you're breathing
but I can't be with-
just another reason
That i've got to stop dreaming
but i can't
like you wanna bring me down or bring me i don't know
and i don't want to make a scene or break nothing but

You make me lose my mind
But once I find it you know, I'll be back again
Back tomorrow night
Back tomorrow
Back tomorrow

Let go
I should let go
But I can't go
'cause I can't leave you behind
'cause you echo
You echo
'cause you echo in my mind
Let go
L-let go
Let go in my mind

Leaver, i believe her

Liar, dirty speaker
But you're not a believer
And I can't either
You send me into fever
I feel it even deeper but I can't
Why you wanna bring me down?
Or bring me, I don't know
And I don't want to make a scene or break nothing but

You make me lose my mind
But once I find it you know, I'll be back again
Back tomorrow night
Back tomorrow
Back tomorrow

Let go
I should let go
But I can't go
'cause I can't leave you behind
'cause you echo
You echo
'cause you echo in my mind

Your audio, your audio
Your audio, come back to me

Your audio, your audio
Your audio, come back to me
