You lead me in
Just to lock me out
(when we talk) You touch my skin
But you treat me like a toy when you say you have a
boyfriend

We danced all night but you leave me at the end of it
You say "Don't call!" but you leave me dirty messages
I'm in the red but all I see is green

You're giving me Yellow Light
You're giving me Yellow Light
Should I go or should I stop?
Play the good or the bad cop?
Giving me Yellow Light
You're giving me Yellow Light
Give the gas or slam the brake before I make a mistake

You push me down
Just to get on top
(when we dance) We're making out
But then you smile ---, blow me a kiss and ---

We danced all night but you leave me at the end of it
You say "Don't call!" but you leave me dirty messages
I'm in the red but all I see is green

You're giving me Yellow Light
You're giving me Yellow Light
Should I go or should I stop?
Play the good or the bad cop?
Giving me Yellow Light
You're giving me Yellow Light
Give the gas or slam the brake before I make a mistake
