"Exploited World"

Visit "Exploited World" on MotoLyrics.com

You want to rule
You want to climb
You still, you kill
You do that to survive

Do you want to climb or you want to die
Steal, kill, it's okay but never do that on innocent
victims
Steal the government, kill this fucking religion
Hypocrite, you steal your mother, your nation
To dominate on the earth

Mother fucking president
You kill, anything, anywhere
For your looks and for your cash
Some words you forget
Like honor and respect
You're not able to just take this main point
Steal kill it's okay but never do that on innocent victims
Steal the government, kill this fucking religion of...
Hypocrite, you steal your brother, your nation
To dominate on the earth

Mother fucking president
You kill, anything, anywhere
For your looks and for your cash
