

Bald Vulture

"Life Is All About"

Visit "[Life Is All About](#)" on MotoLyrics.com

We're animals ! living in a constant fear. Animals !like
vultures, snakes, doves and baby deers
With our lives ! we destroy Mother Nature's earth
When we die ! We give back what we get at birth
We've troubles cause we're thinking only 'bout
ourselves
Animals ! Do the same to protect themselves.
You're affraid ! Cause you think we're making life hard
for them
Look around ! We're all having the same kind of
problems
You see we're all ! In this great big world together

Getting mad ! Do you think we'll make it any better ?
Pools of blood ! Caused by much anger, greed and
lack of love
Should we live ? If that's all we ever want to think of ?
Bashing heads ! Make you think you're better than the
rest
When you're dead ! Then you'll know if you really pass
the test
What is time ! If it never stop, always running out
Leave in peace ! And you'll find that's what LIFE IS ALL
ABOUT
