"Punkcore From Hell"

Visit "[Punkcore From Hell](#)" on MotoLyrics.com

We began in the basement
We began like the other bands
MTL is like everywhere
The smell of shit is the same everywhere

Come on with us to proclaim this old shit system

Music is my life, like my wife, my way of life
For me, and you for i, you and me

I wrote for you, you support me
I play for you, you trash for me

Just say: Punkcore from hell
Just say: Punkcore from Montreal

For all people who encourage us since the beginning
You'll all have our entire gratitude
