Surrounded by vulture  
Bald vulture were ready  
To attack against the system  
Rebellion we hang out in packs

In the show we're in your faces  
We hit like a mother fucking mace  
Never will we give you our place  
Never betray you

Like people i know who blow  
That's the way will never go  
Sorry pal we told you so  
We will never betray you  
Surrounded by vulture, eastern vulture

RA PA SA KA PA RA TA MA RA KA LA SA KA PA RA TA LA  
LA

I hope our message is getting through  
Because it was made for you  
Authority, conformity  
It was never meant for me  
Revolution we conspire  
Never fall, never fear  
Against this full of shit society  
That means nothing for me
