Burn as you can  
Burn!!!  
Are you ready to fight you mother fucker?  
1,2,3,4,  
Let's fight up your hands to strike  
And take you arms to fight  
The force is in your head  
The power is in your hands

What the fuck you stay  
What the fuck of your fear  
Do your fear to be die  
But just move and go to strike to have a real pride

Up your hands to the revolution!

Revolution up your hands

Do you want to be free?  
So let's go to anarchy  
1,2,3,4,  
Let's burn, let's burn as you can  
To as they understand  
All that we want  
We want to say freedom  
Riot, manifestation  
It's the solution  
For my generation  
Use your weapons  
Against this big nation
