Sometimes something happen  
And forces us to come to the force

Some times, some things happen  
And forces us to realize

The only thing that comes out of your mouth is lies  
The only thing that comes out of your mouth is lies,  
lies, lies!

Get out of my shoes, get out of my world

I don't care about you  
Now get out of my mind, get out of my dreams  
Get out of my life  
Now give me peace  
And get out of my mind

I don't care about you  
It's without forgiveness  
And don't fuck with me  
It's without forgiveness
