Jay and James roll tape
I'm ready to...

Here I am
It's Friday night
Feeling good
Time is right
There you come
Right out of the crowd
And all that I can say is

I want you to know
That I can rock you girl so
Come on let's go
I want you to see
I'm really feelin' you so
If you're feelin' me
I want you to know
That I can rock you baby
With the lights down low
I want you to see
I'm really feelin' you so
If you're feelin' me
Go go

So you think you got it all together
Before you make a move and get too deep
Don't you know that I can love her better?
So give it up, go home
And get some sleep

I want you to know
That I can rock you girl so
Come on let's go
I want you to see
I'm really feelin' you so
If you're feelin' me
I want you to know
That I can rock you baby
With the lights down low
I want you to see

I'm really feelin' you so
If you're feelin' me
Go go

Nana nanana nanananananana nanana nana
Nana nanana nanananananana nanana nana
Go go

I must have been mistaken for another
Here I am
You overlooked the fact that I'm your older brother
Friday night
Don't you know the girl - she wants me
Out of the crowd
So look in the other direction and go get some

I want you to know
That I can rock you girl so
Come on let's go
I want you to see
I'm really feelin' you so
If you're feelin' me
I want you to know
That I can rock you baby
With the lights down low
I want you to see
I'm really feelin' you so
If you're feelin' me
Go go

Nana nanana nanananananana nanana nana
Nana nanana nanananananana nanana nana
Nana nanana nanananananana nanana nana
Nana nanana nanananananana nanana nana
Go go
