

**B3****"Until the end of time"**

Visit "[Until the end of time](#)" on MotoLyrics.com

I've been waiting for a lifetime  
For someone just like you  
Always tried to find a reason  
Why's that everything you do

Makes me feel this way  
Keeps me so strong  
Thought I never would surrender  
Till the day you came along

After all that we've been through  
I can't stop loving you  
I don't know what I should do  
(girl,) I can't go without you  
no more promises  
no need for lies or tears to cry  
stay with me forever  
until the end of time

I've been tryin' to find the answers  
To the words you've never said  
And I wonder how we've made it  
To find real love instead

I won't let you go  
Whatever will be  
You're all I ever wanted  
You're the only one for me

Chorus....
