Stop for a moment  
Here's a message to you  
It's a call to us all and  
The things we must do

Got the cause for our vision  
Got the force on our side  
When the sky is the limit  
When we go for the ride

Prechorus:  
Nothing can stop us  
When we stand as one  
When we come together  
And we take on  
We got it, we got it, we got it now

Chorus:  
We got the power  
Get ready to go  
We stand united  
The energy flows  
We got the power  
The moment has come  
Nothing can stop us  
When we stand as one

Stop let me tell you  
Got to get back on track  
It's a call to us all  
And there's no turning back

I don't care what you've been doing  
I don't care where you belong  
From now on we're together  
Cause together we're strong

Prechorus  
Chorus (2x)

We got the power

Get ready to go  
We stand united  
The energy flows  
We got the power  
The moment has come  
Nothing can stop us  
We got it, we got it, we got it now

Chorus

We got the power  
Get ready to go  
We stand united  
The energy flows  
We got the power
