You're the air, babe that I breathe
You're the strength that I always need
You're the light in my eyes
My shining star, yeah, hey

You guide my way
You have to promise me that you will stay
Always and forever
Just you and I

Angel
You're my angel
Oh, whoa
(Yeah, hey)
You're my angel
(You're my angel, baby)
(Alright)

Girl, you know that trust me
I'll be right here and you can count on me
With a hand to hold
And with open arms, oh whoa

I will always be your guidin? light
Always and forever
Just you and me
