Don't try to keep me down (3x)
If you look into my second story window you'll see me
In my third story window
If you look into my second story window you'll see me
In my third story window
I try to get down with all the strength I can muster
But I rise like a helium balloon
Cuz I'm the gravity buster (2x)
I rise like a pie from the dough to the crustah
I get higher than the guy sniffin' ketchup and mustah
If you look high in the sky you'll see my flyin'

Like the cream of the crop I rise to the top
Cuz I'm the gravity buster (2x)
Don't try to keep me down (3x)
I'm looking all across this great big town
And when I jump off of my roof I fall—
Straight up
[Vocal "instrumental"]
Don't try to keep me down (2x)
When we're in my room you can lie below and
I'll hover up above and we can do it real slow
Cuz I'm the gravity buster (3x)
I'm bustin' (bustin' bustin' bustin') gravity
