Peep my credentials involving instruments

Rhymes massage the cells in your mental

Relieves you off the babblin' that you used to

Ever since the departing days of the juice

Crew, my style been milk like a bottle of Yoohoo

Was neva MC Monkey, see Monkey

Do I move through baby, real natural pose for "Illadel"

When I gets lyrical ou-ou like Cool Cee used to do

I make the kids wanna Rah

Like Afu shouts to Mecca 'cause the planet's mad

Digable allow me to pause

And hit the Mork nanu, nanu, wordplay

Non-prehistoric metamorphic boric like acid

No hat tricks, a classic, so park that ass like Jurassic

And check the matrix completed like seven

To overshadow the triple six

Complimenting zig-a-zicks with wisdom

Like the 5 percenters when doing mathematics

Flips scripts like acrobatics intrinsic in rapping

Like insulin to diabetics, text is didactic

With nutrience like muslix on wax flex facts

Like hydraulics when vexed to catch flicks

By Mira max or Kodak

I looks beyond the door like 100x for wordplay

Breaks out analogies like pollen do allergies

Got the vocab like the Fugees to collect gees top

Bill like Bellamy shocking hardcore headz

Like electricity cuts come complimentary of jockey

Sean-Ski, yo, vocally B A H A M A D be easy

Like Moe-Bee raps react radio act like DJ Ran

And Colby to the Roots like Malik B.

Flows pose as noise reduction on MCs

Like Dolby down by law like felonies

Catchy like T-B Essential

To the elements like Ceceley with wordplay
